Professional Experience

HEWLETT-PACKARD | PORTO ALEGRE, RS, BRAZIL

2010- …   Software Engineer
Design and development of embedded software solution for a new product family of Network Scanners, Single Function Printers and MFPs of HP. The development is focused on the UI layer, using C#, .NET and .NET Compact frameworks; HTML5 and WebServices.
Due to the geographical distribution of the teams, I work with colleagues from the U.S. and India on a daily basis.

ACTIA DO BRASIL | PORTO ALEGRE, RS, BRAZIL

2007-2010   Project Coordinator
During this time I worked as a coordinator for the projects of the Automotive Diagnostic BU, where I could improve my management skills.

- Coordination of distributed teams engaged in software development for the company's automotive diagnostic business unit.

- Worked as a developer in critical situations, helping with development, training and application of best practices of software engineering.

- Mapping development process within the scope of the business unit.

- Constant contact with teams of other subsidiaries to cooperate with development, mainly located in France and Germany.

2005-2007   Software Developer
Development of automotive diagnostic systems:

- A web-based system was developed for Fiat do Brasil to allow FIAT engineers to remotely diagnose and repair electronic control units. The client side is a windows desktop application developed in C++/Visual C++ and the server side was developed in Java/JSP/Oracle/JBoss.

- Development and updates for the VCI (vehicle communication interface) firmware.

- C/C++/XML programming to add, update and fix protocols in Actia's solution for automotive diagnostics.

- Experience in automotive communication protocols.

Other projects included:

- Development of digital video capture system for automotive surveillance using embedded Linux.

- Creation and support of installers for several Actia products using NSIS.

W3Haus | porto alegre, rs, brazil

2003-2005 Web Developer
Development of websites and intranet systems mainly using PHP/ASP/C# and PostgreSQL/SQLServer.
